

Notification adjustment allocation of free emission allowances EU ETS aviation 2013-2016

The director of the Dutch Emissions Authority announces that, according to article 16.39l, third paragraph, of the Dutch Environmental Law and Article 1 of Regulation (EU) no 421/2014, with his decision of 1 September 2014 the amounts of freely allocated emission allowances for EU ETS aviation have been adjusted for the period 2013–2016. The member states are obliged to adjust the original allocation, performed in 2011, according to the new geographical scope for EU ETS aviation for 2013–2016. The calculations were based upon the 2010 tonne-kilometre data.

The results of the calculations for each aircraft operator are displayed in the table below. The table shows the annual allocation in the period 2013-2016, the annual allocation in the period 2017-2020 and the total allocation for the period 2013-2020.

CRCO	Aircraft Operator	Annual allocation in the period 2013-2016	Annual allocation in the period 2017-2020	Total allocation for the period 2013-2020
